

Dear Parent/Carer

Cases in schools across Cambridgeshire have almost doubled in the last two weeks and this includes a few cases of the Omicron variant. I am pleased to say that our cases appear to have stabilised, with very few new cases identified over the weekend. This is following an increase to 75% in the number of reported results on ALISS.

The current figures are below: 37 positive PCR results & 11 awaiting...

- **Year 7**            **26 positive PCR** and 4 suspected cases. There are additional measures in place for Year 7 to reduce the risks to other Year groups.
- **Year 8**            **4 positive PCR** and 2 suspected cases
- **Year 9**            **5 positive PCR** and 1 suspected case
- **Year 10**          **1 positive PCR** and 1 suspected case
- **Year 11**          2 suspected cases
- **Staff**             **1 positive PCR** and 1 suspected case.
- 

Please do continue to carry out the twice weekly LFTs and record the results using the link to ALISS. If you notify us that you are taking your child for a PCR test, please can ensure you forward on the confirmation of the result to [attendance@lvc.org](mailto:attendance@lvc.org).

Following the emergence of the Omicron variant the guidance regarding self-isolation is changing and we are awaiting clarification from the Local Authority about this. In the meantime, please do continue to book PCR tests if your child has a positive LFT or is showing one of the three main Covid symptoms.

Thank you for your continued support.

Yours faithfully

Tim Darby
