

# Top Tips for Music Revision

## 1. Make the most of lessons

*In 'Listening' lessons we'll be working through all the available past papers. Do your corrections in as much detail as possible and keep the papers safely to look back on.*

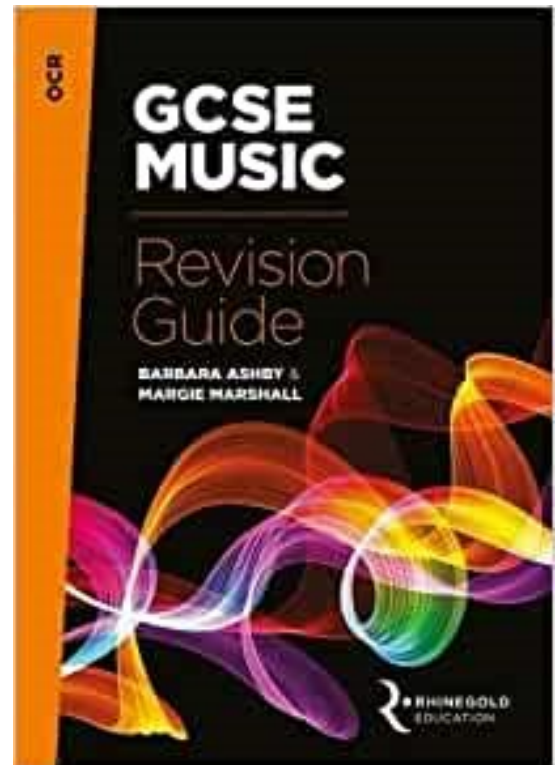

## 2. Respond to the feedback to complete your NEA work.

*This should be your priority between now and Easter. This is worth 60% of your grade.*

## 3. Use the correct revision guide.

### (Rhinegold, OCR Revision Guide)

*Written by Barbara Ashby and Margie Marshall.  
-Listen to all the extracts and practise recalling all the key vocabulary*

## 4. Watch the revision videos on the class teams

There are also knowledge organisers and subject specific vocabulary (key terms) for you to print out.

## 5. Listen to lots of music as you revise.
