

Top Tips for History Revision

1. Make the most of lessons

Teachers have planned the remaining weeks to complete the GCSE course. Revision in lesson time will be negligible.

2. Complete homework on satchel:one and Teams

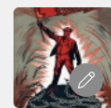

Complete these tasks every week. Some tasks will be revision but most will be based on completing the final unit.

3. Use Teams to consolidate learning

All resources, PowerPoints, worksheets and HL, are set on Teams as assignments. Use these to recap your learning and/or catch up on missed learning as a result of absence.

4. Complete revision quizzes and activities on Teams

Work on specific areas for improvement. Medicine Through Time, Anglo-Saxon and Normans, Russia 1917-45 or Conflict in the Middle East 1945-95. Complete the quizzes, use the revision materials to create mind maps, flash cards, dual coding diagrams and then apply this knowledge to the past papers provided. Hand these in to your teacher for marking.

5. Complete past papers using the Pearson Revision Guides

These books have a very useful section at the back where model answers are given. Answer these questions without the model answer. When complete, compare to the model, where could you improve? Complete the other sample questions. Hand these in to your teacher for marking.

6. Attend History intervention

Tuesday lunchtime from 1.15-1.45 in H2.
